### Discussion Questions:

#### TRUST THE DESIGNER

1. Describe Abraham's background. Why is it surprising that Abraham even believed in God? If God asked you to leave your family and home and go to a new, unknown country, could you do it?
2. What is the value of a test? Why do you think God allows us to be tested?
3. Think of an experience that tested your faith. What happened? What did you learn from the test? How did God use this experience for good (see Romans 8:28)?
4. What happened to Lot's wife when she doubted God and looked back at her old life? Do you sometimes doubt God's promises? What are the dangers of wavering in your faith instead of continuing to move forward?
5. What is one thing that is holding you back in your Christian life? Why are you having trouble letting it go? What can you do to let it go and move forward in your faith?
